

The IntelliBatt Revelation: A single vendor, an integrated solution, an impeccable track record

The battery industry veterans who founded IntelliBatt in 2006 realized that multiple vendors and patched together systems put service level agreements at risk. Why not create one superior solution for the entire battery lifecycle? Leveraging the expertise of The Uptime Power Group, IntelliBatt's founders united all the critical elements in one seamless package.

Our turnkey solution combines best in class VRLA batteries, easy-to-access cabinets, professional installation, monitoring hardware, remote monitoring, weekly reporting and data analysis, and regular maintenance to help our customers achieve 100% uptime.

Does it work? While 85% of all UPS load losses are due to battery failure, IntelliBatt customers have never experienced an unexpected battery failure.

An integrated end-to-end solution saves time, money and stress

Not only does our integrated solution enable us to offer you a better product at a better price, dealing with one knowledgeable, reliable vendor dramatically lowers the amount of valuable IT and operations time you invest in your battery backup installations.

Company Headquarters

San Anselmo, California

Corporate Profile

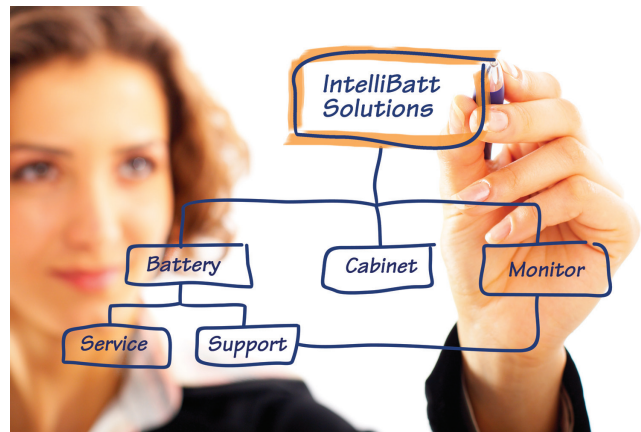

IntelliBatt, LLC, is a privately-held, full-service solutions provider serving global markets with battery backup and predictive services to ensure against systems failure.

Customers

IntelliBatt's customer base is rapidly evolving as the integrated, modular solutions approach is adopted by a range of business models. The core business is comprised of the world's leading data centers and enterprise organizations. However, the telecommunications market is a fast-growing segment for IntelliBatt as reliance on IT systems that feed global economies either through wireless or wire line networks must have 100% uptime guarantees for their customers.

Here is a partial list of IntelliBatt customers:

Barclays	NetApp
Canopy Networks	Qwest Communications
Equinix	Savvis Communications
Latisys Data Centers	ViaWest
NaviSite	Wells Fargo (Wachovia)

Management Team

Michael Brinck	Principal
Steve Cotton	Principal
Doug Sheppard	Chief Technology Officer
Mark Elder	Chief Financial Officer
Ronnie Lim	Vice President, Services

Research and Development

IntelliBatt is committed to supporting best practices in the battery backup marketplace, and pioneering through partnership, expansion into new markets and applications of battery technology. Visit www.intellibatt.com for more information about our latest accomplishments.

IEEE Standards

IntelliBatt adheres to and is committed to meeting or exceeding all IEEE battery standards and practices as they relate to engineering, commissioning, monitoring and servicing these mission critical battery systems. IntelliBatt design, installation and maintenance also comply with best safety practices.

Underwriters Laboratory Standards

IntelliBatt cabinets are UL-listed for compliance to fire and shock safety guidelines.

EPA Standards

IntelliBatt adheres to recommendations for the installation of new batteries and removal and disposal of old ones. All batteries are safely transported and disposed of at an EPA-certified recycling facility. A Certificate of Destruction is provided for your records.
